

Oodles of lollipops

By :

G.I.

and

K.I.

-
- Once upon a time there were 2 children eating candies and they saw a big lollipop.

-
- Every time they came closer the lollipop became bigger. They needed to eat it quickly or it's was going to destroy the world! After one hour of walking they saw five more lollipops.

-
- Now they understood that every time they came closer to lollipop, it clone itself.

-
- After about an hour they ate all the lollipops and slept. The next day their mum had a big surprise for them, a LOLLIPOP!

- AAAAAAAAAAAAAaaaaaaa!

THANKS FOR WATCHING
