

Oodles of hamburgers

Once upon a time there was a restaurant called BFR .Next to it there was another restaurant called Burger Queen. Burger Queen was quicker at making burgers, so BFR got a machine that was very quick at making burgers.

As the machine was working great, it suddenly started going crazy!! After 2 days it broke and hundreds of burgers fell out and all the restaurant was full of burgers so

BFR decided to close for some days.

Burger Queen was every day full of people. Sadly BFR closed for ever.
